

ABSEES 2006 Report

ABSEES has a new managing editor (Irene Kolchinsky) plus graduate assistants. Entries haven't been uploaded since May, but that should occur by the beginning of December. The subcommittee reviewed the core journals list. We want only those that will be indexed cover-to-cover to be listed; this will include non-English titles. We are also compiling a wish list of journals to be indexed. Some members think they can recruit volunteer indexers; current indexers report that the web interface is easy to use. EBSCO is having technical difficulties, but apparently not specifically with ABSEES. EBSCO is thinking of acquiring EBSEES and has met with them this year to discuss the possibility.
